WAGNER

Wagner Report

The restoration of the Wagner Homestead will be completed by the end of this week. All that remains is to hang the shutters and clean up!

It appears that the house has termites. It is recommended that we tent the house.

We need some direction on a dedication ceremony.

The Historical Museum has come up with two educational programs that would utilize the House. Elementary school children would be offered the opportunity to participate in an on-location drama and Jr. High students would be encouraged to participate in an Art and Architecture Program.
